2. Choose Character

![New Character](image2)

3. Resize Character and Move to Start Place

- Drag the car from the center of the screen to the bottom corner.

4. Make Programs

- Use the grid to calculate how many blocks the car should move.

- How would you make the car go only half way across the screen?

- What would happen if a wizard, or a dragon, or an elephant appeared on the sidewalk?
